

Pablo Carreño

Every artist is known for a definitive style or school. Cuban born Pablo Carreño defines himself as an expressionist. His work (Murals, Water Colors, Pen and Ink, Oil Paintings, and Portraits) present a curious diversity of styles and forms although at the same time. He maintains a flow and unity of lines which makes his work easily recognizable. His art has been shown in numerous one man and collective shows. Pablo Carreño paints the way he thinks and works in accordance with this explosive temperament. A magnificent manifestation of vibrant and intense colors is present and characteristic of his paintings. His imagination and constant creativity make him conceive and unfold a wide range of artistic expressions. Pablo Carreño is as vibrant as the multiplicity of his talent.
